WELCOME LETTER

*July 2008
Colorado Springs, CO*

Dear American Eye Study Club colleagues,

On behalf of the Executive Committee, I welcome you to the 52nd Annual Meeting of the American Eye Study Club, convening for the second time in Club history at the historic Broadmoor in Colorado Springs. This year marks the 50th anniversary of our last meeting at the Broadmoor, and we are grateful the institutional memory of the hotel is not as great as that of the Coco Palms!

We are excited about the many activities available for Eye Study Club members and their families here in the Colorado Springs area. The Broadmoor is home to three world class golf courses and was the home to the PGA Senior Tour last year. In addition to our annual golf and tennis tournaments, we have arranged for an outing to the top of Pike's Peak via the historic Cog Wheel Train and also a white water rafting adventure. Additionally, there are many local sights such as the Olympic training facility, the Air Force Academy, Valley of the Gods, the Broadmoor's own zoo, and countless opportunities for hiking and fishing.

This year we are offering CME credits for a certain portion of our meeting (up to 11 Category 1 credits). This is no small task with respect to the administrative efforts required to "justify" credits in the eye of the accrediting agency. We want your feedback, and we hope that this added benefit will be a meaningful and enticing component for members to attend. As you review the program booklet you will get a sense of the quality of the program that has been assembled under the guidance of Bob Gold, our president-elect and program chair. We hope that all members in attendance will participate in the true spirit of the American Eye Study Club engaging in lively discussion regarding the topics presented. As we all know, it is the free exchange of ideas that is the essence of this organization; we rely less on "canned" lectures while viewing the information or concepts presented as a springboard for interaction and exchange of thoughts.

The officers would also like to acknowledge the ongoing efforts of Rich and Kathy Paul and their staff for their organizational and administrative efforts on our behalf. We have tried to learn from the economic realities imposed upon us and believe that we have a very solid estimate of the cost of this meeting. We have gone to great lengths to avoid surprises, and I want to thank the officers as well as our administrative team for their extra effort in this regard.

The Foundation of the AESC was founded to ensure future support of the educational goals of the Club. We are grateful for the current support of the Foundation, and I urge every member – especially those in attendance at this meeting – to make a donation. While the costs of our meetings are high, they would be greater if not for the Foundation support of educational expenses.

It is my hope that this meeting will continue in the rich tradition of the American Eye Study Club, as we exchange ideas and experience, share our humor, and experience the camaraderie. Have a great time!!

Sincerely,

John A. Irvine, MD

CME Information

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through joint sponsorship of the Colorado Foundation for Medical Care, Office of Continuing Education (CFMC OCE) and American Eye Study Club. CFMC is accredited by the ACCME to provide continuing medical education for physicians.

Colorado Foundation for Medical Care designates this educational activity for a maximum of 11 *AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

CFMC has no financial responsibility for this activity.

Commercial Support: There is no commercial support associated with this meeting.

Target Audience

This program is geared toward practicing ophthalmologists who are well-established in their practice.

Learning Objectives

At the conclusion of this conference, the attendee should be able to:

1. Review risk factors for glaucoma and cataract patients;
2. Discuss how understanding these risk factors can prevent complications and unwanted outcomes for glaucoma and cataract patients;
3. Identify the best surgical options for treatment of pterygia;
4. Discuss techniques in pediatric retinal imaging and their impact on diagnosis in retinopathy of prematurity;
5. Identify treatment trends in the management of glaucoma patients;
6. Describe the relative benefits of surgical techniques for oculoplastic cases;
7. Review how new approaches in ophthalmic education ultimately impact the quality of patient care;
8. Illustrate how minimizing malpractice risk factors in a physician's office can prevent malpractice cases;
9. Discuss how to prevent emotional issues from negatively impacting patient care.

Participant Evaluation & CME Credit

In order to receive CME credit, members are required to complete the on-line evaluation form provided by CFMC. We also ask that you complete the enclosed claim form which will enable us to track attendance.

The web address for the form is: <http://www.yoursource.com/eval/?act=367!07222009>

53rd ANNUAL MEETING ❖ 2010

Nemacolin Woodlands Resort *Farmington, Pennsylvania*

Tuesday, August 3 – Saturday, August 10, 2010

NEMACOLIN WOODLANDS RESORT, located in the Laurel Highlands of Southwestern Pennsylvania not far from Pittsburgh, is one of only 21 hotels and resorts in the world to host AAA Five-Diamond lodging and dining. Situated on 3,000 acres, the Mobil Four-Star and AAA Four-Diamond resort features 335 luxurious guestrooms, suites, Townhouses, and Private Luxury Homes, including the AAA Five-Diamond Falling Rock boutique mountain hotel.

In addition to the internationally acclaimed Woodlands Spa, the resort offers 36 holes of championship golf on two courses - the Pete Dye designed, PGA-tested Mystic Rock and the traditional Links Course. For shooting, guests should visit the Nemacolin Shooting Academy, an outdoors sporting facility on 140 acres complete with 30-stations, spacious lodge, wing shooting and Orvis-Endorsed Fly Fishing.

For a more rugged and adventurous experience, try the many offerings of the Adventure Center. The Instructional Series will guide you through a progression of three off-road courses designed to develop and enhance your driving skills. Spend the afternoon or day at our Wildlife Academy, home of the Equestrian Center, animal nursery, petting zoo, animal habitats, and educational programs. Black bears, zebra, buffalo, tigers, hyenas, moose, and wolves are just some of over 100 animals that currently call Nemacolin home. For shoppers, there are 14 specialty shops in Heritage Court, plus nearby Uniontown boasts the ultimate outdoor store, Woodlands World. Culture is also an experience at Nemacolin, home to a Multi-million dollar Hardy Family Art Collection, Cooking Classes and Wine Tasting in the state-of-the-art Académie du Vin.

We hope to see you in Pennsylvania next year!

WHAT IS THE AMERICAN EYE STUDY CLUB?

Established in the late-1950s by young ophthalmologists who would become distinguished figures in ophthalmology (Thomas Hedges, Thomas Kearns, Howard Naquin, Edward Norton, and Albert Ruedemann, Jr.), the American Eye Study Club was created to serve as a forum for young leaders in our profession from diverse academic and geographic backgrounds to openly exchange ideas and discuss new developments in ophthalmology in a scientific and social setting that included spouses and families. Active membership was limited to ten years so that the Club would remain fresh and vibrant and evolve in concert with our profession. However, Emeritus members have contributed to the Club's sense of tradition through continued involvement in the Club's Annual Meetings and gatherings at the American Academy of Ophthalmology.

As subspecialization has become more common in ophthalmology, the American Eye Study Club has remained a setting in which comprehensive ophthalmologists and representatives of numerous subspecialties may share information and ideas that keep all of us abreast of what is happening in our specialty as a whole. Just as importantly, this information is shared in an informal environment that engenders a strong sense of camaraderie. Over the years, the Club has evolved with the changes in our profession but has also developed such traditions as the Baptismo Emeritus, which was "introduced" by Ed Isbey, Jr. at the 10th Annual Meeting at the Cocoa Palms Resort in Hawaii in 1967.

The American Eye Study Club is composed of up to 60 Active members and more than 100 Emeritus members who have served as state, regional, national, and international leaders in our profession. Many have served as president of the American Academy of Ophthalmology and/or as a director of the American Board of Ophthalmology. Thirty or more have served as chairs of university departments of ophthalmology. To get a better idea of some of the activities of current AESC members, please see the "Did You Know?" section of the program.

Without question, our founding members would be proud of the history and course followed by this organization and its members. Whether you are an Emeritus member, established Active member, or new Active member, we are delighted that you are a part of this truly wonderful group, the American Eye Study Club!

TEN COMMANDMENTS OF THE AMERICAN EYE STUDY CLUB

(developed by Edward K. Isbey, Jr., MD)

1. Learn from your peers.
2. Do not avoid controversial subjects.
3. Speak your mind and convictions.
4. Support each other professionally, emotionally and spiritually.
5. Be a participant and not just an observer.
6. Strive to know all the members – active and emeriti.
7. Be a proselyte for the Club; yet be selective.
8. Be a volunteer in the workings of the Club.
9. Do not be reticent to change.
10. Be yourself and share yourself with others.

ALBERT D. RUEDEMANN, JR. LECTURE

The Ruedemann Lecture was established in the late 1980s to honor the memory of Dr. Albert D. Ruedemann, Jr., one of the creators and founding members of the American Eye Study Club. Just as Ed Isbey, Jr. is now, Dr. Ruedemann was the driving force behind the AESC for many years and served as its Secretary-Treasurer for nine years and as its President in 1967 during his last year as an Active member. He was a brilliant and innovative clinician, surgeon, and thinker who practiced in Detroit, Michigan, where his father, also an ophthalmologist, was a Professor at Wayne State University and the first Director of the Kresge Eye Institute. Over the past 15 years, many of our profession's leading figures have delivered this lecture in Dr. Ruedemann's honor.

AESC FOUNDATION JERRY & DONNA KNAUER LECTURE

The American Eye Study Club Foundation was established in 2003 as a charitable trust to support the educational and philanthropic goals of the AESC. An annual lecture was started the following year to highlight the Foundation and to recognize a member who embodies the principles for which it stands. At the 50th AESC annual meeting in 2007, it is fitting that this lecture be named for Jerry and Donna Knauer, a charter member of the AESC and strong supporters of the Foundation.

Did You Know?

Members of the American Eye Study Club are extremely productive in a variety of activities within ophthalmology. Did you know that ...

1. Christie Morse, George Ellis, Gene Helveston, Daryel Ellis, Ed Buckley and Jack Baker all are past-presidents of the American Association for Pediatric Ophthalmology and Strabismus (AAPOS)?
2. Six AESC members are past-presidents of the American Orthoptic Council, including Ed Buckley, George Ellis, Daryel Ellis, Gene Helveston, Monte Del Monte, and Jack Baker?
3. Ed Buckley served as an Associate Editor of the Journal of the American Association for Pediatric Ophthalmology and Strabismus and also on the Editorial Board for the American Orthoptic Journal and the Journal of Neuro-Ophthalmology?
4. George Ellis is past-president of the New Orleans Academy of Ophthalmology and is past-president of the Louisiana/Mississippi Society of Ophthalmology and Otolaryngology? (Sprague Eustis also was president of the Louisiana/Mississippi Society in the early 1990s.) George also served as Louisiana Councillor for the Southern Medical Association and secretary of the Ophthalmology Section for the Southern Medical Association. He and Ed Buckley also served on the Executive Committee of the Ophthalmology Section for the American Academy of Pediatrics. (Sounds like George and Ed need some more jobs!)
5. Barrett Haik, AESC president in 1994, was a Featured Speaker/Guest Lecturer at the 2001 ASOPRS (American Society of Ophthalmic Plastic and Reconstructive Surgery) Symposium in New Orleans? His lecture was entitled "Pediatric Orbital Tumors." Barrett is the Hamilton Professor of Ophthalmology and Chair of the Department of Ophthalmology at the University of Tennessee-Memphis.
6. David Plager has served as a member of the Board of Directors of the American Association for Pediatric Ophthalmology and Strabismus and also on the Editorial Board for the AAPOS journal? David is a Professor of Ophthalmology at Indiana University in Indianapolis.
7. David DiLoreto was the executive director of the practice plan at the Louisiana State University Medical Center in New Orleans?
8. Sprague Eustis served as the residency program director at the LSU/Ochsner program in New Orleans? He is also was chair of the AAO's Ophthalmology Monographs Committee.
